PROFESSIONAL SUMMARY

Frontend Developer with production experience building responsive, multilingual web applications using React.js, Next.js, TypeScript, and Tailwind CSS. Experienced in REST API integration, state management with Redux and React Query, and frontend performance optimization including lazy loading and code splitting. Comfortable working across the full frontend stack — from component architecture and dynamic localization (Arabic/English, RTL/LTR) to deployment and collaboration with cross-functional teams.

PROFESSIONAL EXPERIENCE

Apr 2026 – Present

Blue Brain Agency — Front-End Developer *Part-Time*

- Developed production-ready web applications using React.js and Next.js (App Router, Server Components).
- Built reusable, scalable UI component libraries with modern frontend architecture to improve maintainability.
- Integrated REST APIs and implemented data-driven interfaces with optimized rendering strategies.
- Improved responsive behavior and frontend performance through lazy loading and code splitting.
- Implemented dynamic multilingual (Arabic/English) experiences with seamless RTL/LTR switching.

Nov 2025 – Feb 2026

PureSoft — Frontend Developer *Internship · On-Site*

- Redesigned responsive interfaces and implemented robust Arabic/English RTL/LTR support across production applications.
- Architected optimized data flows by integrating complex RESTful APIs using Axios and Redux.
- Built performant front-end systems with React, Vite, and Next.js, focusing on clean code and reduced load times.

May 2025 – Sept 2025

Google Developer Groups (GDG) on CIC — Frontend Trainee *Training Program*

- Completed an intensive frontend development training focused on React.js and modern web practices.
- Built interactive web projects and gained hands-on experience with component-based architecture.
